Heliski in the Susa Valley - More than 80 slopes and descents within 5 sectors is the heliski playground in the Upper Susa Valley. Every day the guides choose the itineraries depending on the ski level of the participants and the snow conditions of the moment. Guests can go skiing for a whole week without ever going down through the same descents! The height-difference of the tracks depends on the skills of the participants and it generally ranges between 1.600 and 800 vertical meters On a typical day you can easily get to ski for 5.000 vertical meters. At the end of your last run you can choose between the options of returning to the base by helicopter, or have a rest and lunch in a typical restaurant. Alternatively, it is planned to return by a minibus service arranged exclusively for our clients.
